

# HOW TO PLAY

## Flower Four in a Row

**Objective:** To cover up four spaces in a row!

**Number of Players:** 2-3

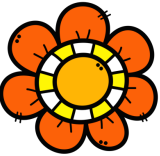

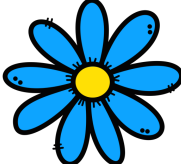

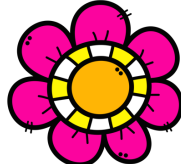

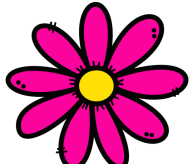

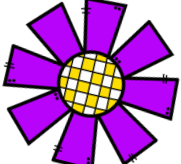

**Materials:** Game Board, colored game chips or cubes, die

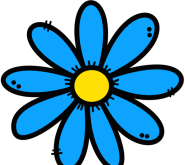

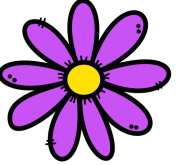

### Directions:

1. Roll a die.
2. Solve a problem in the column of the number that you rolled *OR* cover up a flower space in the column of the number that you rolled!
3. If you solve the problem correctly, you can cover up the space. If not, you do not get to cover it up! Your partner should check your work.
4. Whoever is first to get four in a row in any direction wins the game!
